

## CAMERON DAVIES

DIRECTOR, DEICKE RICHARDS

### ACADEMIC QUALIFICATIONS

B Arch, M Blt Envir (Urban Design)

### EXPERIENCE OVERVIEW

Cameron is an urban designer and architect with a developed understanding of cities, towns, and the diverse range of building types within them. Since 1995, Cameron has designed and directed significant greenfield and urban regeneration design projects in Queensland. As an architect, he has been responsible for the design and coordination of a broad range of projects including education, mixed-use developments, sustainable multi-residential housing, aged care facilities, data centres, industrial and university buildings. He has highly developed visual communication skills and significant experience with both private and public sector clients. He is also one of the foremost enquiry by design facilitators in Australia and regularly uses this skill to engage stakeholders in the design process. Through his work, and his masters thesis research, he has a well developed understanding of sustainable urban growth management.
